

ISONG Education Grant Information

ISONG members whose work focuses on educating nurses in genomics are invited to apply for a \$750.00 grant to complete an educational project/intervention. The project should promote genomic education to graduate, undergraduate, or practicing nurses. Projects must be completed within one year.

Projects may include but not limited to:

- Course development and design
- Development of educational assessment measures
- Educational tool kit
- Improvement of teaching models

Applicant Requirements:

- Applicant must be a current member of ISONG and involved in genomic education to nurses.
- Applicant must disclose if funding from ISONG for this project has been previously provided.
- Applicant must complete a **Letter of Intent** due no later than May 14, 2021.

Grant Submission Requirements:

- Applicant must submit the grant via email to the Education Committee co-chairs, Ruth Lucas at ruth.lucas@uconn.edu and Mary Hanson-Zalot at Mary.Hanson-Zalot@jefferson.edu - **ONE PDF file** that includes the application and project design/description (800 words maximum) should be submitted no later than Friday, June 25, 2021 (midnight EDT). The email subject line must include the last name of the Submitter and ISONG Grant 2021. Example: Jones_ ISONG_EDUGrant_2021.

Awarding of grant funding is competitive and will be determined through peer review of proposals by members of the ISONG Education Committee. Educational impact on professional development in genomics is the primary criterion for funding decisions.

Date of Letter of Intent: Friday, May 14, 2021

Grant Application Date: Friday, June 25, 2021

Grant Announcement Date: Mid-August 2021
