Call for Speakers for Expert Lectures at the 2020 ISONG Congress

ISONG members are advancing genetics through their innovations in research, education, practice, and policy. Expert Lectures are being planned for the 2020 ISONG Congress to provide an opportunity for all of us to benefit from recent advances in the field. The Congress Committee invites application submissions for a Lecture at this Congress on November 13-15, 2020, Durham, North Carolina, USA. If you plan to submit an abstract in a content area in which you already have scholarly publications or presentations, please consider submitting your abstract as an Expert Lecture.

Priority for Expert Lectures will be given to those who address the Congress theme: “Genomic Nursing: Fulfilling Nightingale’s Legacy of Care.”

Submissions should provide content on a focused topic related to nursing research, education, or practice. The number of presentations will be determined after submissions and reviews are completed. We expect presentations to last 30 - 60 minutes, to be determined by the committee at a later date based on the number of submissions.

Applications are due by Monday, April 27, 2020 and should include the following information:

**Presenter:** For each presenter, provide the following information: name, credentials, affiliation/employer, city, state, country, email and phone number.

**Objectives:** At the end of the lecture, attendees will be able to: (list objectives)

**Publications:** Provide citations for 2-3 publications relevant to objectives of the presentation.

**Content:** Provide an outline of the content to be presented for each objective. If there are multiple presenters, please identify the presenter responsible for specific content.

**Expert Lecturer:** List 2-3 presentations or publications that you have presented and/or published relevant to the presentation or other evidence of your expertise.

**Click here to submit for the Expert Lecture.**

Please contact the 2020 Congress Abstract Co-chairs if you have any questions: Kathy Sparbel, Linda Ward, and Lathika Mohanraj.
