

## ISONG

is an inclusive professional group serving the nursing profession and the public. Internationally, nurses are engaged in genetic and genomic healthcare at all levels of policy, education, research, and clinical practice. We welcome new perspectives and relish the opportunity to have new members join us in shaping the future. **We invite you to join ISONG today!**

## *Our Vision*

---

To care for people's genetic and genomic health throughout the lifespan and across the continuum of health and disease.

## *Our Mission*

---

To serve both the nursing profession and the public. ISONG fosters and advocates for the scientific and professional development of its members and the nursing community, in the discovery, interpretation, application, and management of genomic information, for the promotion of the public's health and well being. ISONG advocates for public understanding of genomic health and use of genomic information.
